## 📁 Projects

- Unit Converter (JAVA)** [🔗](#)  
Unit Converter is an app that lets you do exactly what its name suggests: convert all kinds of units, regardless of what you're trying to measure. You can convert measurement units of length, weight, temperature, speed, power, voltage, and many others.
- Image Hosting Site (MERN Stack)**  
Using React, Node.js, Express & MongoDB you'll learn how to build a Full Stack MERN Application - from start to finish. The App is called "Image Hosting Site" and it is a simple social media app that allows users to post interesting events that happened in their lives.
- ECOMMERCE Website (MERN Stack)**  
An ecommerce website using mern stack that is scalable and future proof. I have used React for frontend & redux for state management, Node JS & Express for backend with MongoDB as database.
- Magic-8-Ball** [🔗](#)  
This was my First iOS App build using Swift Language. It was kind of a Decision Making Ball or Fortune Ball, It was a Basic App which was Designed & Build from Scratch by Me.
- Diceee** [🔗](#)  
This was my Second iOS App build using Swift Language. It was Basically an App to Roll the Dice in Random Order
